PORT WASHINGTON, WI – MAY 23, 2011 ... Franklin Energy Services LLC, a leading national energy efficiency services company based in Port Washington, WI, received the ENERGY STAR® Sustained Excellence award for Wisconsin's Focus on Energy commercial program, which it manages. The U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE) honor organizations that have made outstanding contributions to protecting the environment through energy efficiency. This is the fourth consecutive year that Franklin's commercial team's achievements in program implementation for Focus on Energy have been recognized and awarded ENERGY STAR Sustained Excellence. In 2010 the team saved a total of 175,195,074 kWh and 5,034,986 therms in Wisconsin businesses.

The commercial sector of Focus on Energy assists all commercial businesses but proactively targets four segments due to their high energy use: healthcare, hospitality, grocery and large commercial buildings. Each target market has a team dedicated to developing informational and incentive offerings directed to each market's needs and opportunities. This target market approach allows Focus on Energy to effectively manage small projects, while proactively targeting large energy savings opportunities.

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Learn more at www.focusnenergy.com.

Franklin Energy has 270 employees within 20 offices in nine states. It has been named a Best Places to Work and Future 50 Company in southeastern Wisconsin. Franklin Energy contracts with utilities, municipalities and states to provide on their behalf energy efficiency programs to end use customers including Commercial, Industrial and Residential customers.
